

# Coronavirus Standards Working Group Meeting Summary Addendum

Dear Colleagues –

Thanks for the great feedback I've heard from our meeting on Friday, and thanks again to Patrick!

I neglected to include an item in the meeting summary: Jim Huggett told us about a CCQM Webinar on '*Ensuring the reliability of measurements in response to the COVID-19 pandemic*' hosted by the [International Bureau of Weights and Measures \(BIPM\)](#) back on 25 March. The recorded workshop is available at [this YouTube link](#), and [the agenda is available here](#).

For your reference, as included in the main summary, our [meeting recording is here](#), [my brief update slides are here](#), and [Patrick's slides are here](#).

All the files will be on [our website here](#).

Cheers and stay safe!

Marc

Marc Salit, Ph.D.

Director, Joint Initiative for Metrology in Biology – <http://jimb.stanford.edu>

SLAC National Accelerator Laboratory

Adjunct Professor, Departments of Bioengineering and Pathology

Stanford University
